Technical Skill

- **Languages**: C, C++, JavaScript, Html, CSS, SQL & Python
- **Frameworks**: Node.js, Express.js, React.js, Next.js, Talwind.CSS, Bootstrap
- **Tools/Platforms**: Visual Code Studio, Git, GitHub, Postman, Figma, HTML5
- **Cloud/Database**: MongoDB, Neon DB, PostgreSQL, MySQL, Firebase
  - **Core Skills**: DBMS, Computer Networks, Operating Systems, Artificial Intelligence, DSA
- **Soft Skills**: Problem-Solving Skills, Team Player, Adaptability

Personal Projects

To Do App

MongoDB, React.js, Express.js, Node.js, Talwind.CSS — *Dec 2025 – Jan 2026*

– Built a **full-stack To-Do application** using MERN stack to manage daily tasks with smooth create, update, and delete functionality.
– Developed **RESTful APIs** and ensured seamless integration between frontend and backend for real-time updates.
– Designed a **clean, responsive UI** with persistent storage in MongoDB for reliable task tracking and better user experience.

CARTIQ- Smart Budget Shopping App

MongoDB, React.js, Express.js, Node.js, Tailwind.CSS — *Feb 2026 – Mar 2026*

– Built a **full-stack e-commerce platform** where users enter a budget and instantly receive an auto-generated, value-optimized shopping cart using a custom IQ scoring algorithm.
– Designed a **greedy optimization engine** that scores each product based on rating, reviews, and price to maximize value within the user's budget in under one second.
– Deployed a **production-ready MERN app** with React on Vercel, Express API on Render, and MongoDB Atlas as the cloud database with 42+ seeded products across 5 categories.

PlanAI – AI Daily Planner

JavaScript(ES6+), HTML5, CSS3, Firebase, PWA, Vercel\hfill — *Mar 2026 – Apr 2026*

– Built a **Progressive Web App (PWA)** for smart daily planning, featuring cross-device data syncing via Firebase, offline Service Worker capabilities, and persistent local storage.
– Developed a **client-side AI scheduling engine** and **custom natural language parser** to auto-generate optimized itineraries from conversational inputs (e.g., "Read for 45 mins high priority").
– Designed a **highly interactive, dependency-free frontend** hosted on Vercel, featuring a native Pomodoro timer, habit heatmaps, and productivity charts built directly with the HTML Canvas API.

Certificates/Achivements

- **MongoDB Developer's Toolkit: CRUD Mastery | GeeksforGeeks** **Certificate**
  Mastered cloud database management and CRUD operations using MongoDB with Node.js, Java, and Python. *Dec 2025*
- **Effective Communication Skills | Skillera / Masters' Union** **Certificate**
  Completed a proctored MOOC focusing on professional communication and skill enhancement. *Oct 2024*
- **Certified in C++ | Infosys Springboard** **Certificate**
  Validated proficiency in C++ programming through the Infosys Springboard certification *May 2025*
- **WEB-A-THON 2.0 (University-Level Hackathon)** **Certificate**
  Exhibited outstanding performance in design, development, and strategic thinking during a 24-hour hackathon. *Feb 2026*
- **C Programming with Proctored Exam | Coding Tantra** **Certificate**
  Completed 15+ hours of MOOC coursework and passed a proctored examination on core C concepts. *Jan 2025*
- Solved **200+ DSA** Problems across multiple Platforms. **Leet Code**

Education

- **Lovely Professional University** — Punjab, India
  Bachelor of Technology - Computer Science and Engineering — *Since August 2024*
- **Maa Vaishno Modern Public-School, Sonbhadra, UP** — 2022-2023
  Intermediate (CBSE Board) — *Percentage: 86%*
