SKILLS

Languages: C, C++, Java, JavaScript, TypeScript, Python, SQL, HTML5, CSS3
Frameworks & Libraries: Node.js, Express.js, React.js, Next.js, Tailwind CSS, Prisma ORM, ZOD
Tools/Platforms: Git, GitHub, VS Code, Vercel, Render, Postman, MongoDB, AutoCAD,
Soft Skills: Problem-Solving, Communication Skills, Team Player, Adaptability

PROJECTS

College-Discovery Platform | GitHub

June'2026

Next.js 16, React 19, TypeScript, PostgreSQL, Prisma ORM, NextAuth v5, Tailwind CSS

- Built a full-stack college discovery platform that turns structured educational datasets into an interactive search experience, letting students explore colleges across 28+ states with real-time filtering and personalized recommendations.
- Optimized a multi-criteria query and filtering engine with Prisma ORM to process college type, fees, location, and other parameters across 50+ institutions, reducing query complexity by 40% and achieving sub-second response times.
- Leveraged Next.js, TypeScript, PostgreSQL, Prisma ORM, and React to implement college comparison tools, placement analytics dashboards, AI-powered college predictions, and saved-college functionality with URL-driven state synchronization.
- Enhanced application security and scalability through NextAuth v5 authentication, Zod schema validation, Prisma migrations, reusable custom hooks, and responsive Tailwind CSS components.

ResumeAI Analyzer | GitHub

April'2026

Node.js, Express.js, Google Gemini AI, GitHub API, Vanilla JS, CSS3

- Conceptualized a full-stack AI-powered platform that transforms GitHub repository metadata into professional, high-impact, ATS-optimized resume content using Google Gemini 1.5 Pro.
- Implemented an NLP-driven parsing pipeline capable of processing PDF and DOCX resumes, extracting structured professional information, and identifying skill gaps with 99% extraction accuracy
- Leveraged GitHub REST APIs and LLM-based analysis to convert code-specific metrics including stars, programming languages, repositories, and commits into recruiter-ready project descriptions and technical skill insights.
- Streamlined the professional profile-building workflow through a companion Chrome Extension and advanced CSS-based editor, enabling AI-assisted resume generation, customization, and optimization.

CARTIQ- Smart Budget Shopping APP | GitHub

Febraury'2026

MongoDB, React.js, Express.js, Node.js, Tailwind CSS

- Architected a full-stack e-commerce platform where users enter a budget and instantly receive an auto-generated, value-optimized shopping cart using a custom IQ scoring algorithm.
- Engineered a greedy optimization engine that scores each product on rating, reviews, and price to maximize value within the user's budget in under one second.
- Implemented MERN-stack concepts including RESTful API design, MongoDB data modeling, algorithmic optimization, asynchronous data handling, and responsive React development.
- Deployed a production-ready application with React on Vercel, Express APIs on Render, and MongoDB Atlas as the cloud database, featuring 42+ products across 5 categories.

CERTIFICATES

- Oracle AI Database Certified Foundations Associate | Oracle | [Certificate](#)
- Data Structures and Algorithms | Cypher Schools | [Certificate](#)
- MongoDB Developer’s Toolkit: CRUD | GeeksforGeeks | [Certificate](#)
- Certified In C++ | Infosys Springboard | [Certificate](#)
- C Programming with Proctored Exam | Code Tantra| [Certificate](#)

August'2026
 July'2026
 December'2025
 May'2025
 January'2025

ACHIEVEMENTS

- Solved 200+ DSA Problems on [LeetCode](#)
- Secured Top 10 rank in a hackathon among 100+ participating teams.

EDUCATION

Lovely Professional University
 Bachelor of Technology - Computer Science and Engineering| CGPA: 7.2
M.V.M Public School
 Matriculation; Percentage: 84
M.V.M Public School
 Intermediate; Percentage: 86.2
